● ● ESTATE AGENCY SERVICES

We all know we need floor plans

So let's make sure drawing them is as easy as possible and fits around how your agency works...

Draw your own

Our most popular drawing method; Metropix users create 3,000 floor plans every day using our simple software.

The Metropix app has had a recent update too with some brand new in-app features for even faster floor planning.

Metropix Mobile

All the simplicity of Metropix in the palm of your hand. Download the iOS app from the Apple App Store and work seamlessly between desktop and your favourite tablet. It's ideal for working onsite and everything syncs to the desktop version using a single login.

Autodraw

Too much on? If you need to outsource a few processes then our Autodraw system is the easiest way to free up an extra pair of hands. Simply sketch out the plan old school style and send it to us. Our Autodraw service will send it back within 24 hours.

Metropix is getting a fresh new look

New features include:

- ✓ Faster floor planning
- ✓ Add stairs with the click of a button
- ✓ Multi-browser support
- ✓ Upgrade to colour in seconds
- ✓ Brand new in-app features and more...

And don't forget Metropix is...

- **Simple** – nothing to download, get up and running straight away
- **Easy to use** – Add rooms, doors, windows and internal features in a few clicks
- **Fast** – halve the time it takes to draw your floor plans with our unique Plan Bank
- **Integrated** – whether you're using desktop, mobile or Autodraw, access your floor plans from one account
- **Agile** – Metropix floor plans scale down for viewing on tablet
- **Effective** – differentiate your business with 2D, 3D, FREE branding and interactive add-ons
- **Fully supported** – award-winning on-going training and support via webinar, email, phone and live chat
